Daniel Ori

Product designer for data-rich enterprise workflows and AI-assisted experiences.

oridaniel97@gmail.com · +44 7466 844813 · Liverpool, UK · commutable to Manchester · danielori.website · linkedin.com/in/daniel-ori-793020b0

PROFILE

- 8+ years designing complex B2B products; I turn layered rules, roles and edge cases into clear, accessible workflows.
- Currently designing internal tools, payment workflows and an AI content product at Babban Gona; Computer Science graduate with HTML/CSS and JavaScript.
- Comfortable owning a feature area end-to-end with PMs, engineers and researchers across time zones, inside a shared design system.

EXPERIENCE

Babban Gona — Remote · Jan 2025 – Present

Senior Product Designer

- Designed Rana Studio, an AI product where teams create, review and recover AI-generated training content before it becomes a final video, keeping humans in control of generative output.
- Designed AFaaS, an 8-module finance platform: distinct payment paths, maker/controller roles, batch review and actionable exception states for data-heavy operations.
- Prepared A/B variants and test plans (sync action, member search and selection) and handed engineering a connected model of steps, roles, statuses and components.

Cavista (Axxess global partner) — Remote · Apr 2023 – Present

Senior UI/UX Designer

- Led product design for CTCare, an enterprise leave-management product across employees, managers, the People Team and Finance; won Cavista's 2024 internal hackathon and moved into production development.
- Translate requirements into flows, prototypes and specifications for distributed engineering teams working with a US healthcare-technology partner (Axxess).

uLesson Group, for Miva University — Jun 2023 – Mar 2024

Web Designer

- Helped deliver Miva University's first official website ahead of launch.

FlexiSAF Edusoft — Aug 2019 – Dec 2022

Product Designer

- Designed education products across web and mobile; validated ideas with wireframes and prototypes.

Rosabon Financial Services — Jul 2017 – Aug 2019

UI/UX Designer

- Designed financial product experiences and implementation documentation; contributed to early product strategy.

SELECTED PROJECT

Figorr CCI Platform (2023–24): Admin, owner and customer portals over shared facilities, orders, payments and live telemetry; discovery with 15 owners, 20 customers and five site inspections; 500+ screens, tokens, dark/light themes and responsive states.

STRENGTHS

- Data-rich, workflow-heavy interfaces
- AI-assisted & generative experiences
- Discovery, interviews, workshops, usability testing
- Interaction design & prototyping in Figma
- Design-system stewardship
- Accessibility (WCAG)
- Agile cross-functional delivery

TOOLS

Figma, FigJam, Miro, Framer, Webflow, Adobe CC, HTML/CSS, JavaScript

EDUCATION

MA Immersive Media, Liverpool John Moores University (2026–2027, in progress) · **BSc Computer Science**, Covenant University (2016)

Certificates: Product Design by Google (Udacity, 2023) · Foundations of UX Design (Coursera, 2022) · Webflow 101 (2024)
