Daniel Ori

Senior product designer for high-stakes operational software where accuracy matters.

oridaniel97@gmail.com · +44 7466 844813 · Liverpool, UK · commutable to Manchester · danielori.website · linkedin.com/in/daniel-ori-793020b0

PROFILE

- 8+ years designing enterprise and operational software where one wrong decision costs somebody something real.
- I make responsibilities, trade-offs and failure paths visible before debating the interface: role-based workflows, exception states and audit records.
- Strong on discovery with frontline users, 0-to-1 products and close partnership with PMs and engineers in the UK, US and Africa.

EXPERIENCE

Babban Gona Remote · Jan 2025 – Present

Senior Product Designer

- Designed AFaaS, an 8-module operational finance system where the wrong person must not move a transaction: role separation, review checkpoints, exception states and an audit trail.
- Designed internal tools and Rana Studio (AI content creation, review and recovery) around real operational roles and decisions.
- Built reusable interface patterns and handed engineering a connected model of steps, roles, statuses and components.

Cavista (Axxess global partner) Remote · Apr 2023 – Present

Senior UI/UX Designer

- Led 0-to-1 design for CTCare, a records-heavy leave-management product used by employees, managers, the People Team and Finance; won Cavista's 2024 internal hackathon and moved into production development.
- Translate operational requirements into flows, prototypes and specifications for a US healthcare-technology partner (Axxess).

uLesson Group, for Miva University Jun 2023 – Mar 2024

Web Designer

- Helped deliver Miva University's first official website ahead of launch.

FlexiSAF Edusoft Aug 2019 – Dec 2022

Product Designer

- Designed education products across web and mobile with developers and stakeholders.

Rosabon Financial Services Jul 2017 – Aug 2019

UI/UX Designer

- Designed financial product experiences and implementation documentation; contributed to product strategy.

SELECTED PROJECT

Figorr CCI Platform (2023–24), 0-to-1: Six-month programme: field research with 15 owners and 20 customers plus five site inspections; three connected portals for verification, orders, payments, documents and live monitoring; 500+ screens.

STRENGTHS

- Complex operational & records workflows
- Enterprise SaaS
- 0-to-1 product design
- Leading design research
- Role-based permissions & audit
- Prototyping & high-fidelity UI
- Established design systems (Figma)

TOOLS

Figma, FigJam, Miro, Framer, Webflow, Adobe CC, HTML/CSS, JavaScript

EDUCATION

MA Immersive Media, Liverpool John Moores University (2026–2027, in progress) · **BSc Computer Science**, Covenant University (2016)

Certificates: Product Design by Google (Udacity, 2023) · Foundations of UX Design (Coursera, 2022) · Webflow 101 (2024)
