Daniel Ori

Product designer for payment, approval and AI-assisted workflows in B2B finance.

oridaniel97@gmail.com · +44 7466 844813 · Liverpool, UK · commutable to Manchester · danielori.website · linkedin.com/in/daniel-ori-793020b0

PROFILE

- 8+ years designing B2B and fintech products; currently designing payment approval workflows and AI-assisted tools at Babban Gona.
- Specialist in approval flows and financial controls: maker/controller separation, batch payments, exception states and audit trails.
- Works end-to-end inside a squad, from problem framing and research to Figma prototypes, design-system components and engineering handoff.

EXPERIENCE

Babban Gona — Remote · Jan 2025 – Present
Senior Product Designer

- Designed AFaaS, an 8-module payment portal where finance teams start, review and approve payments to individuals, member groups, transporters and staff.
- Replaced a single universal form with distinct payment paths and separated Finance Members (makers) from Financial Controllers (approvers), so the wrong person cannot move money forward.
- Designed one control model for single and batch payments, with actionable clean / flagged / invalid / blocked states and an audit record that answers 'what happened' later.
- Designed Rana Studio, an AI product for reviewing and recovering AI-generated training content; prepared A/B test variants and a shared component model for engineering.

Cavista (Axxess global partner) — Remote · Apr 2023 – Present
Senior UI/UX Designer

- Led product design for CTCare, a leave-management product spanning employees, managers, the People Team and Finance; won Cavista's 2024 internal hackathon and moved into production development.
- Translate business requirements into flows, prototypes and interface specifications for distributed engineering teams.

uLesson Group, for Miva University — Jun 2023 – Mar 2024
Web Designer

- Helped deliver Miva University's first official website ahead of launch.

FlexiSAF Edusoft — Aug 2019 – Dec 2022
Product Designer

- Designed education products across web and mobile; tested and refined ideas with wireframes and prototypes.

Rosabon Financial Services — Jul 2017 – Aug 2019
UI/UX Designer

- Designed financial product experiences and implementation documentation; contributed to early product strategy.

SELECTED PROJECT

Figorr CCI Platform (2023–24): Six-month B2B marketplace programme: three connected portals sharing facilities, orders, payments and documents; research with 15 owners and 20 customers; 500+ screens on a tokenised design system.

STRENGTHS

- Approval flows & financial controls
- Complex data workflows
- AI-powered features & AI-assisted prototyping
- User research & usability testing
- Figma: components, variants, auto layout
- Design-system contribution

TOOLS

Figma, FigJam, Miro, Framer, Webflow, Adobe CC, HTML/CSS, JavaScript

EDUCATION

MA Immersive Media, Liverpool John Moores University (2026–2027, in progress) · **BSc Computer Science**, Covenant University (2016)
Certificates: Product Design by Google (Udacity, 2023) · Foundations of UX Design (Coursera, 2022) · Webflow 101 (2024)
